

# Our Moon

Reading · Lectura en inglés británico (texto informativo): Nuestra Luna

The Moon is Earth's only natural satellite. It travels around our planet, and one trip takes about 27 days. The Moon does not make its own light: it reflects light from the Sun.

The Moon is smaller than Earth. If Earth is a basketball, the Moon is a tennis ball. It is also very far away: about 384,400 kilometres. Thirty planets the size of Earth can fit between Earth and the Moon!

There is almost no air on the Moon, so people can't breathe there. Gravity is weaker there: it is about one sixth of Earth's gravity. In full sunlight, the Moon is very hot, but in the dark it is much colder.

In July 1969, Neil Armstrong and Buzz Aldrin were the first people on the Moon. They walked on its dusty ground and collected rocks. Between 1969 and 1972, twelve astronauts walked on the Moon. In April 2026, four astronauts travelled around the Moon on the Artemis II mission.

## Word bank · Vocabulario

**natural satellite:** satélite natural

**travel around:** dar vueltas alrededor de

**trip:** viaje, vuelta

**reflect:** reflejar

**far away:** lejos

**fit:** caber

**breathe:** respirar

**weaker:** más débil

**one sixth:** un sexto

**in full sunlight:** a pleno sol

**dusty ground:** suelo lleno de polvo

**collect:** recoger

## 1 True or false?

Lee cada frase y decide si es verdadera o falsa.

1. The Moon makes its own light.

(T) (F)

2. The Moon is smaller than Earth.

(T) (F)

## Our Moon

3. Gravity on the Moon is stronger than on Earth.

☐ T ☐ F

4. The Moon is Earth's only natural satellite.

☐ T ☐ F

### 2 Read and choose.

Lee y elige la respuesta correcta.

1. One trip of the Moon around Earth takes about ...

a) 7 days    b) 27 days    c) 384 days

2. People can't breathe on the Moon because ...

a) there is almost no air    b) it is very cold    c) it is very far away

3. In April 2026, four astronauts ...

a) walked on the Moon    b) collected Moon rocks    c) travelled around the Moon

### 3 Answer the questions.

Responde a las preguntas con una frase corta.

1. How far away is the Moon from Earth?

---

2. Who were the first people on the Moon?

---

3. When were they on the Moon?

---

4. How many astronauts walked on the Moon between 1969 and 1972?

---

### 4 Your turn: compare and write.

Ahora tú: compara y escribe. La respuesta es libre; la solución solo da un ejemplo.

1. Compare Earth and the Moon. Write two sentences with bigger, smaller, stronger or weaker.
